

The profitability of your business relies on keeping your accounts receivable organized, timely, and accurate. The Rapid ERP System® is THE all-inclusive solution that gives you ease and confidence in managing your receivables, from calculating special charges to accounting for the labor hours spent on a site.

□ IMPROVE CASH FLOW

Rapid ERP® is designed to keep your cash flow streaming and your business profitable.

It is the ONLY industry solution that translates recorded job information into billable sales, quickly and accurately.

□ CENTRALIZE BILLING & FLEXIBLE PRICING MANAGEMENT

Rapid ERP® Billing and Pricing Central is the fastest and most reliable way to create, send, and track the details needed to generate invoices. With endless price sheet options, you can quickly create unique and flexible pricing structures for your clients. Plus, our pricing solutions allow changes to be automatically updated on your invoices.

□ STREAMLINE JOB-TO-INVOICE PROCESSING

Transferring job information from another system to your accounting records can leave your books vulnerable to mistakes. With the Rapid ERP® System, you can be confident that the details of each job are accurately recorded and are automatically translated into billable transactions. Now you can streamline your entire billing process by combining your current accounting software with our easy-to-use, easy to cross-integrate ledger.

OWNER'S GUIDE

- Reduce costly errors with automated pricing calculations
- Strengthen your confidence in management of receivables
- Improve your cash flow and overall profitability

**WITH RAPID ERP® YOU WILL PROCESS MORE INVOICES, SOONER,
IN LESS TIME AND WITH A HIGHER LEVEL OF ACCURACY.**

□ POWERFUL & FLEXIBLE PRICING TOOLS

Our pricing tools meet the dynamic needs of your customers with multiple assignability options, eliminating the need to constantly recreate same pricing for every project.

- Intuitive pricing schemes designed to support any pricing options assigned to a customer, job site, or single job
- Unique pricing sheets based on equipment size and job type
- Custom-priced line items assignable to an entire scheme or a single sheet for special equipment sizes
- Powerful mass-price-editing for simplified pricing updates
- Dispatch notification on price expiration

□ CENTRALIZED BILLING INTERFACE

Rapid ERP's Billing Central is designed to be task driven and process more invoices in less time. Our interface helps you to keep track of the order of events to allow printing and reporting that match the workflow process.

- Dynamically search, sort and group information to create a task-driven invoice list for easy-to-track processing
- Monthly summary schedule with daily highlight indicators that outline jobs, unprocessed invoices, and other useful information to ensure each day is properly closed
- Streamlined job-ticket-to-pricing entry for automatic and accurate invoice calculations
- Global view of combined notes from pricing, dispatch, and invoicing to ensure unified billing communication
- Merge invoices for consolidated billing and support jobless invoices for miscellaneous services and parts sales

□ COMPREHENSIVE COLLECTIONS MANAGEMENT

Paper-based communication and ticketing is slow and prone to errors. Rapid ERP® together with On The GO!® integrates digital dispatching with your mobile workforce for instant job ticket delivery and auditable communication.

- Automatic statement creation based on powerful filters
- Advanced collections reporting that exceed traditional accounting statement with invoices grouped by job site
- Ensure customer compliance with credit limit enforcement, dispatch reminder, and optional order prevention
- Integrated financial services fee (late charge) for past-due invoices with write-off options
- Exportable Excel® based revenue class reports and consolidated ledgers for simple journal entries and reconciliations
